

Basket Box Pattern

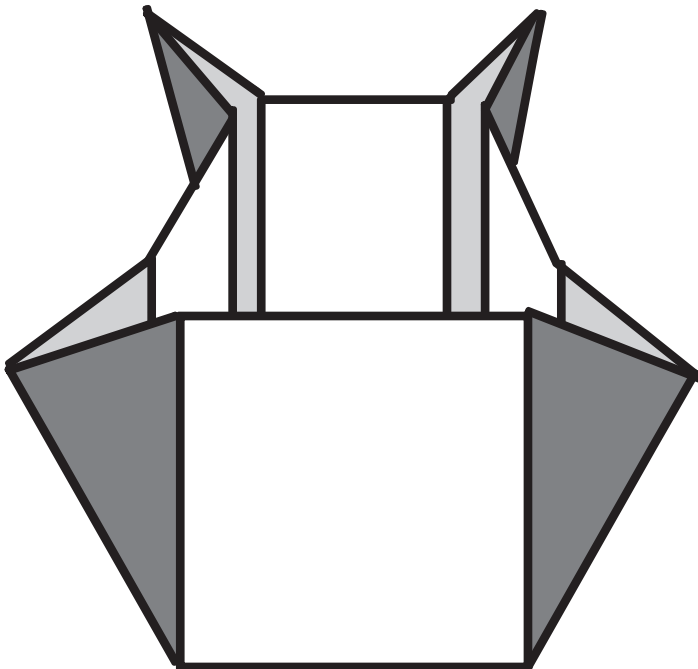

copyright 2004 by Sharon S. Rivera

Start with a 6" x 6" square of card stock. Score at 2" and 4", turn and score again at 2" and 4" to create a grid of 2" squares. Score the corner squares on the diagonal as shown in the diagram. Fold on the scored lines and fold into the basket/box as shown in illustration. This can be made any size, just divide the card stock into thirds and score.

Step 1 - Score card stock

Step 2 - fold on scored lines as shown in diagram

Step 3 - fold corner triangular sections to the outsides of box and adhere
