

5t x 4-3/4w x 1-7/8d Box Template

Page Two of Two

by Sharon S. Rivera ©1996

Print both pages on card stock. Cut out on solid lines, score and fold on dashed lines.

NOTE: Template on second page is flipped - this WILL make a difference if printing on paper that has a design on one side. If printing on plain card stock, you can print two of page one and just flip one of the pieces after cutting out - see diagram. Overlap glue tabs and adhere on both sides of box as shown in diagram to assemble.
